
STAFF DRESS CODE

The Swan Valley School Division recognizes that staff members are role models for the students who come in contact with them in school activities and programs during and after school hours. The Board recognizes the positive effect staff members can have on their students. It is therefore strongly suggested and encouraged that staff members dress and groom themselves in a manner appropriate to the educational environment.

It is not the intent of this policy to usurp any person's right to dress as they deem appropriate. However, in light of the nature of dealing with your formative persons in the school setting, discretion and common sense call for an avoidance of any extreme which would interfere with the normal educational process. In addition, as role models, staff members should always be conscious of how their dress and grooming affect individual students.

Grooming or attire which is perceived as offensive and/or inappropriate to community standards or tastes should be brought to the attention of the employee, by administration, upon receipt of a written report outlining the difference as to what is appropriate such that the employee can address the issue.
