### **Heyes and Taylor: Swan River**

The Swan Valley School Division recognizes the School of Choice Guidelines on AP: 115 School of Choice. The Division also realizes that there may be situations due to class sizes that students in Heyes and Taylor may benefit from going to the other school. If the situation arises where one school has a full grade and the other school has room and is able, the Principals of the two schools will consult with each other and the Superintendent. If permission is given by the Division, the Principal of the full grade will offer any new student and parent enrolling the opportunity to go to the school that has room. This will be a choice of the student and parent and they may choose to stay in their school area if they wish.
