

Saskatchewan Residents

The Swan Valley School Division (SVSD) recognizes that there are students in Saskatchewan that may live closer to SVSD than to their catchment school division. In these cases all School of Choice policies would still apply (Administrative Procedure AP: 115 School of Choice). The one area that SVSD may consider would be transportation of these students. These decisions would be based on the following:

Nonresident pupils who choose to attend a school in SVSD may be eligible for transport on SVSD buses, if satisfactory arrangements can be made for the pupil(s) to be picked up/dropped off at an agreed upon location, or at a transfer point if there is space on the bus and where said arrangement can be made safely without unreasonable delay for the other pupils. Such arrangement shall be subject to the agreement of both school divisions on all associated matters, including space availability, timing, convenience to other pupils and financial support for the costs incurred. The pickup/drop off point may be outside the SVSD boundaries if the foregoing conditions are met. The final decision will be made by the Board.

SVSD, as a party to the 2002 Interprovincial Saskatchewan/Manitoba Border Agreement, will cooperate with the intent and procedures within the Agreement with regard to admission of Saskatchewan students.
