WORKPLACE SAFETY AND HEALTH

The Board of Trustees expects operation and maintenance of the school plant, equipment and transportation services to set high standards of safety, to promote the health of pupils and staff and to support the environmental efforts of the staff to provide good instruction.

The Swan Valley School Division shall strive to maintain all facilities as safe, healthy places of employment and learning. Every effort shall be made to design and operate all facilities in compliance with Federal and Provincial Occupational Safety and Health Regulations.

The Swan Valley School Division acknowledges and shall endeavor to provide current information on potential adverse health effects and apply appropriate safe procedures for work activities. The Division will support and encourage the work of Workplace Safety and Health Committees as determined by provincial legislation for the Division.

It is the responsibility of all employees, students and contractors with the Division to make safety and health part of every activity and to follow the policies and regulations of the Swan Valley School Division, Federal, Provincial and local safety and health regulations.
