

Topic: Executive Summary- Board Meeting  
Date: September 28, 2020  
From: Jon Zilkey, Superintendent/CEO

---

1. The board examined staffing and was made aware of the challenges of getting professional staff and bus drivers for the current year at SVSD.
2. The board discussed extracurricular sports at SVSD and will re-examine at the next meeting after getting information on what other school divisions around the province are doing.
3. The board went over Covid cases in other school divisions and the plan for what happens, if it happens, in SVSD. Public Health would give direction to the school division, parents, and students involved. The school division needs to prepare for this and what that might look like for distance learning for an isolation period, if needed. Given the Valley's interconnected transportation, it is possible a case could affect more than one school.
4. The board's workshop is September 30. In that meeting it will be doing a board review, look at topics on governance and code of conduct.
5. The board discussed the reallocation of resources to provide more support in psychology for the division.
6. The board discussed the Workplace Safety Day on October 2, and the Professional Development Day on October 23 for teachers.
7. The secretary-treasurer discussed the reporting template schools have to do monthly when it comes to Covid expenses and savings.
