

TAYLOR HILL Sliding Rules

1. One student per carpet, unless it is a two-seater.....then, no more than two. Round saucers are okay; only one person per saucer.
2. Proper clothing must be worn when sliding. ***Toques, mitts and snow pants are all required.***
3. Only students with carpets/saucers go down the hill.....students with a partner on a two-seater are okay.....but we don't want freeloaders making it miserable for others.
4. Students will stay well to the east of the fence.....no one should be sliding or playing behind it (too close to the walkway and the baseball fence).
5. Grades 1, 2 and 5 will use the hill during the first recess while the Kindergarten, Grades 3 and 4 will use it during the last recess. We'll have to go in "shifts" at lunch until the novelty wears off – ***even grades K, 2 & 4 on even days and odd grades 1, 3 & 5 on odd days.*** The classes should slide in order of oldest closest to the fence with Kindergarten furthest to the northeast. **NO SLIDING BEFORE SCHOOL.**
6. Bumps and ramps will **NOT** be used.
7. Please remind students that carpets must be carried with caution.....rolled up (sharp edges on cold windy days are weapons!)
8. Heads up running back up the hill!
9. General good behavior is required or students lose their privilege on the hill. This is important starting the very first day.
10. Hopefully, there will still be some who think they'd like to slide!!
